ILARIA COMINI

ARCHITECTURE & DESIGN

Architect with over ten years of international experience and focused on sustainable architecture. Graduated in **Architecture**, she obtained her **professional license** in 2018.

Her experience on **residential projects** has led her to emphasize the importance of healthy living environments, collaborating with various organizations and initiatives toward a **regenerative vision** of a society that is "**socially just, culturally rich and ecologically restorative**" (LBC).

PROFESSIONAL EXPERIENCE

04/2022 – 04/2025

Architect at FFM-Architekten Tovar + Tovar / Frankfurt am Main

Melibocusstrasse Project (2023–2025): Design and realization of a new **residential complex** in Frankfurt. Co-management of the project in **BIM** and coordination of all design phases, including construction approval procedures. (LPH 3–5)

Competition – Urban Settlement in Neuwied (2022): Redevelopment, extension, and new construction of an urban settlement. Responsible for urban planning, architectural and landscape integration.

Competition – New Residential Area at Ostpark, Rüsselsheim am Main. Client: Nassauische Heimstätte Wohnung- und Entwicklungsgesellschaft MBH. Urban, architectural, and landscape planning.

Villa S – New construction of a single-family villa with garage for a private client. Design development, execution planning, cost control, and site supervision (LPH 5–8).

2018 – 03/2022

Architect at EarlyBirds Architekten / Frankfurt am Main

Villa E, Hofheim am Taunus: Design and construction of a single-family villa. Private client. Design development, building permit, detailed and execution planning, cost control, and site supervision (LPH 3–8).

Villa B, Bad Soden: Private client. Design development and building permit (LPH 3–4).

Co-Housing e Co-Working project in Gelnhausen: Design development and building permit (LPH 3–4).

2016 – 2017

Architect at MK Menzel und Kossovski Architekten / Darmstadt

Various projects, including a new residential complex in Mannheim and the newest Visitor Center (Besucherzentrum) at Frankfurt International Airport.

COLLABORATIONS

2024

Collaboration as **Ambassador** for the international organization Habitarmonia, focused on the dissemination of biophilic design practices.

2023

Publication in the "**Journal of Biophilic Design**" (UK).

Active collaboration with the international magazine dedicated to wellbeing, cities, and creativity. Author of the article "Prato Urban Jungle" (May 2023), focused on Studio Pnat and the green development of the city of Prato (Tuscany).
